It is one of the largest professional manufacturers of photovoltaic brackets in China and the Asia-Pacific region. As a global leader in photovoltaic mounting structure product manufacturing and system solutions, Versolsolar is committed to becoming a global leader of high-end equipment and intelligent services in new energy industry.

Galvanized steel bracket has stable performance, mature manufacturing process, high bearing capacity and easy installation. It is widely used in civil, industrial solar photovoltaic and solar power stations. It mainly uses section steel as the main material, and C-section steel is processed by hot coil cold bending.
