80W highly durable, lightweight, semi-flexible solar panel reinforced with anodised aluminium and featuring a strong ETFE surface. Made from high quality monocrystalline solar cells designed to get the most out of low light conditions, this panel can still produce a good amount of power even when not in direct sunlight.

The 80w PV Logic flexi solar panel can deliver up to 520wh per day and as such a degree of self-sufficiency can be achieved where power demand is limited to lighting, mobile device charging, powering electric gates and other low energy consumption DC appliance power is needed. Benefitting from a five year product warranty, the panel is supplied

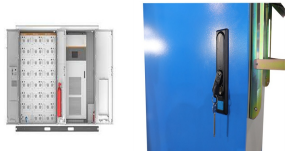

Looking for the best 80w solar panel for camping? REDARC's monocrystalline flat panels are highly efficient with a robust design. A tempered glass coating and a sturdy aluminium frame ensure that our panels will withstand harsh road conditions and extreme weather conditions.
