

PLUS POWER BATTERY COMOROS

Does plus power have a Kapolei battery? Plus Power announced it has begun operating its Kapolei Energy Storage facility on Oahu, Hawaii, the most advanced grid-scale battery energy storage system in the world, helping transition the state's electric power from coal and oil to solar and wind. Plus Power's Kapolei battery is officially online.

Does plus power have a battery storage project? Plus Power LLC announced completion of \$1.8 billion in new financing for standalone battery storage, including the largest single such project financing to date, to help stabilize the U.S. electrical grid while incorporating more solar and wind energy.

Why did plus power win a big battery contract? Earlier this year, Plus Power also won a massive battery contract to displace a coal plant on Oahu, Hawaii. Plus [Power] identified an early opportunity for storage to provide valuable services in Texas, CEO Brandon Keefe said. Broad Reach was the right partner at the time to bring this project from [notice to proceed] to online.

What does plus power do? Plus Power develops, owns, and operates battery energy storage systems that enable a more efficient and reliable electric grid. Our energy storage projects enhance grid stability by storing excess energy and injecting it back into the grid when it is needed during record peaks, storms, and unexpected demand.

What makes plus power unique? Led by seasoned executives from the energy and battery storage industries, Plus Power's team is built on a culture of curiosity, respect, and transparency. We apply an intentional mindset to development by prioritizing local relationships, optimal siting considerations, and environmental stewardship.

PLUS POWER BATTERY COMOROS

What is Oahu's 185-megawatt battery project? The 185-megawatt project will be the largest stand-alone battery in the state and is now considered a key bridge to Oahu's transition off of the 180-megawatt AES coal plant, which is scheduled for retirement in September 2022. This is a milestone toward the state's march to 100% green-generated power.

Plus Power LLC announced completion of \$1.8 billion in new financing for standalone battery storage. Post this, the company, which leads the sector for developing, owning, and operating standalone

Palm Sized Power: Featuring a 99Wh (31000mAh, 3.2V) capacity and an impressive 128W output, the Explorer 100 Plus Portable Power Station packs mighty power, in a smaller size. Supporting multiple protocols, it delivers fast charging.

Reliable: Alkaline Plus Power batteries are an affordable, reliable battery power choice for a wide variety of household devices; **Anti-Leak Protection:** Panasonic has developed a unique gasket to prevent leaks.

Harness the power of Duracell Plus 9V PP3 6LR61 Batteries, a 2 Pack designed to deliver consistent and long-lasting energy for a wide array of devices in both business and consumer applications.

SRP announced the Sierra project in October 2022 and the four-hour lithium-ion BESS is expected to come online in summer of 2024. It is one of two large-scale projects the utility has contracted for which will help it achieve its net-zero goal.
