Who is Polat Enerji? With Enerji, the renewable energy subsidiary of Polat Holding and Bank Group as its partner, Polat Enerji commenced its international operations in 2024 under Polat Energy Europe. In 2024, the company will activate two separate solar power plants in Hungary with a total capacity of 86 MWp.

What is Polat Energy Europe? Polat Energy Europe, leveraging its expanding business network, aims to become a global player in renewable energy by exploring international investment opportunities.

How many wind power plants does Polat Enerji have? With a total installed power of 693.5 MWm/654.4 MWe, Polat Enerji has 5 wind power plants across Turkey. Established in 2000 with a vision to meet society's demand for innovative, renewable, and environmentally friendly energy, Polat Enerji focuses on wind and solar energy, which hold significant potential in Turkey.

Does Polat Holding have a sustainable future? Project development efforts are ongoing. For a sustainable future, Polat Holding continues to invest in domestic, renewable and clean energy and works for other clean energy sources.

What is Polat Enerji's first wind power plant? Polat Enerji's first wind power plant, Soma Wind Power Plant (WPP), began operations in 2009. Today, Soma WPP stands as the largest operational wind power plant in Turkey. Following Soma, Poyraz WPP came online in 2012, and Geycek WPP in 2013. Geycek WPP is the fifth-largest operational wind power plant in Turkey.
