

PUERTO RICO ADVANCED ENERGY STORAGE SYSTEMS

Does Puerto Rico need energy storage solutions? ???Isolated from typical supply lines,Puerto Rico needs solutionsthat reduce electricity costs,improve grid reliability,and accelerate renewable energy deployment,??? says DEPCOM Director of Energy Storage Nadja Gocek.

What is Puerto Rico's battery energy storage system? The Puerto Rico Electric Power Authority's battery energy storage system is a 20,000kW energy storage project located in Puerto Rico. It was announced in 2018 and will be commissioned in 2020. The Puerto Rico Electric Power Authority owns the system (100%).

How much money does Puerto Rico have to pay for solar? Up to \$190 millionis available to Puerto Rico???s Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized,multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why did Puerto Rico get a power outage? The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Mariapummeled the island as a powerful Category 4 storm in 2017,razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.

DEPCOM Power has inaugurated Ciro One, Puerto Rico's largest solar and battery energy storage system (BESS). As an integrated provider engineering, procurement and construction (EPC) and operations and ???
