

REAL GOODS SOLAR LIVING CENTER TANZANIA

In Hopland, California, two hours north of San Francisco on Highway 101, there is an oasis. Opened in June of 1996, the Real Goods Solar Living Center demonstrates through its structures and landscape the grace and excitement of a lifestyle called "Solar Living." Edible plants abound. Rows of trees and stone pillars orient visitors to the Solstice and Equinox.

The big idea / John Schaeffer -- Getting real: Real Goods and its customers / Stephen Morris : Real Goods corporate principles -- The landscape plan: A place study / Stephanie Kotin and Christopher Tebbutt : The solar calendar / Baile Oakes -- Design: manifesting the vision / Sim Van der Ryn : The five ecological design principles and their ???

He sold the very first photovoltaic (solar module) to the North American public in 1978 and over the years, through Real Goods, he has provided over 100 MW of solar power and has helped solarize over 15,000 homes. John is also the founder of the Solar Living Institute, based at the 12-acre solar-powered Solar Living Center in Hopland, California.

The Solar Living Center receives close to 200,000 visitors a year. We also hosted the Northern California Permaculture Convergence for a 5-day event and welcomed the Russian River Watershed Descent participants for an overnight as they made their way down the River. SLI's residential internship program, which recruits young adults eager to become

Real Goods has sold environmental and renewable energy products since 1978, with fiscal 2000 revenues estimated to be around \$16million. The Real Goods Solar Living Center, a 12-acre, solar-powered, environmental and healthy living project in Hopland, Calif., will serve as a public relations tool for Gaia. The center receives more than 150,000
