

RENEWVIA SOLARIA LIMITED

AFGHANISTAN

Who is renewvia solar? We design, install, own and operate commercial and community solar power systems across multiple continents, and provide a complete range of solar energy solutions including turnkey solar installation, integrated financing and solar consulting services. Renewvia launched in 2009 and developed our first rooftop array that same year.

Who is renewvia Energy Corporation? Renewvia Energy Corporation is a top 500 Global Solar Developer headquartered in Atlanta, Ga. We design, install, own and operate commercial and community solar power systems across multiple continents, and provide a complete range of solar energy solutions including turnkey solar installation, integrated financing and solar consulting services.

What does renewvia do? Renewvia partners with large and small businesses alike to develop solar, energy storage, and EV assets on any and all types of property in order to sell the electricity generated to the same client and/or creditworthy off takers. Renewvia Energy Corporation is a top 500 Global Solar Developer headquartered in Atlanta, Ga.

Where is renewvia based? With two subsidiaries in Kenya and Nigeria, Renewvia has a large and growing presence in key markets across Africa, where the company builds, installs and operates minigrids: standalone power system that operate autonomously from a country's main power supply.

When did renewvia start? Renewvia launched in 2009 and developed our first rooftop array that same year. We spent the next few years expanding into new geographies and industries across the United States and added a multitude of new projects to our still growing portfolio. In 2015, we entered the Africa market and developed our first Off-Grid Rural Electrification Project.

The minigrids are 60 kW, 20 kW and 27.6 kW, respectively, according to the Atlanta-based company. Before the minigrids were set up, the UN refugee settlement, the town and village had only limited access to electricity from expensive and unreliable sources like solar home systems and small diesel generators, according to Renewvia.
