However, without a formal buyback scheme in place, households and businesses that produce excess electricity through solar panels have no means to sell surplus energy back to the grid. This omission could hinder the growth of decentralised renewable energy generation and limit the benefits of solar energy expansion.

Since a fixed solar panel is set in one position it is ideal to place it at an angle that will expose the panel to the most sunlight throughout the year. This angle is generally the same angle of your latitude which is 45.5 for Saint Martin. You do not need to strategically place a 1-axis or 2-axis

SAINT MARTIN SOLAR PANEL BUSINESSES

panel as much as you do a fixed panel.
