What are the energy accounts for Samoa? 1. Introduction This publication is the 2nd Energy Accounts ever produced, following the compilation of the first Experimental Energy Account for Samoa using the 2016 Samoa Energy Review by the Ministry of Finance. The Energy Accounts 2020 presents estimates on physical supply and use of energy (in joules¹) for Samoa.

What are Samoa's energy goals? One of Samoa's main goals for the energy sector is to achieve 70.0 % renewable energy use by the end of 2031, as stipulated in the Pathway for the Development of Samoa (PDS 2021/22- 2025/26). The Energy Account also provides statistics to assess and monitor the progress of that goal.

What are the energy issues faced by Samoa's energy sector? all energy stakeholders. The Plan will report on the energy issues faced by Samoa's energy sector, which includes high energy costs, dependence on imported fossil fuels, limited access to energy services in rural areas, and institutional capacity constraints to manage

What are the energy accounts for Samoa 2020? The Energy Accounts 2020 presents estimates on physical supply and use of energy (in joules¹) for Samoa. Figure 1 highlights the Physical Energy Flows for Samoa, 2020. The accounts are compiled and developed by closely following the United Nations System of Environmental Economic Accounting (UN SEEA 2012) Central Framework and SEEA Energy 2019.

What is the Samoa Energy Review 2017-2019? The source is acknowledged. This is the eleventh review that covers the period from 2007 to 2019. The Samoa Energy Review 2017-2019 is produced by the EPCMD, under the Ministry of Finance to provide the Government of Samoa, business community and the general public with a better understanding of energy data trends,
