## 6 ELECTRIFICATION WITH RENEWABLES EXECUTIVE SUMMARY

Access to affordable, reliable and modern energy is essential for the delivery of quality health services, whether that is to power critical life-saving equipment, such as incubators and lighting in labour rooms, or basic diagnostics and administrative needs.

AFREC's energy balance 2020 show that the total primary energy supply was 170 ktoe. Biomass (firewood and charcoal) is used heavily for cooking purposes. There is no oil refinery. As a result, all petroleum products including jet fuel, gasoline and kerosene have to be imported. The fuel comes mostly from an Angolan supplier that has an effective monopoly.

The capital city of Sao Tome and Principe is home to about 60,000 of the country's inhabitants. Remnants of its colonial past can be seen everywhere, perhaps most notably in the architecture of the presidential palace and the cathedral. A highlight is the Sao Sebastiao Museum, which incorporates the first fort to be built on Sao Tome.

The project in S?o Tom? and Pr?ncipe is a public-private partnership between Global OTEC and SIDS DOCK, the Small Island Developing States (SIDS) Sustainable Energy and Climate Resilient Organization and is seen as a key way for the region to reduce the dependence on costly fossil fuels and drive the energy transition.

However, the nation's abundant renewable energy resources, such as solar, wind, and hydropower, present a unique opportunity to transform its energy market and pave the way for sustainable development. One of the primary reasons for S?o Tom? and Pr?ncipe's reliance on fossil fuels is the lack of a robust energy infrastructure.

Cocoa is currently the islands's top cash crop, as cocoa makes up 70-80% of the country's exports by value. "In 2021, S?o Tom? and Pr?ncipe exported USD17 million in Cocoa Beans, making it the 28th largest exporter of cocoa beans in the world," according to Observatory of Economic Complexity (OEC) .

Since the colonial era, STP has been supporting its renewable potential and intends to intensify its use, particularly hydro energy. The aim is to provide more and more quality energy, and above ???

In 2022, S?o Tom? & Pr?ncipe's electricity consumption was overwhelmingly dependent on fossil fuels, with almost 93% of the electricity generated coming from these sources. Low-carbon energy sources contributed a modest portion, with hydropower accounting for a little over 7% of the total electricity mix. This heavy reliance on fossil fuels poses significant challenges in terms of air

One of Principe's stunning beaches. Photo: Marta Marinelli. In 2019, S?o Tom? and Pr?ncipe was named by Lonely Planet as one of the top 10 countries in the world to visit thanks to its "world-class" beaches. Given the unique volcanic topography and geology of the archipelago, all the beaches are wild and truly pristine.

Sao Tome and Principe is one of the smallest countries in Africa, but a must-see tourist destination. I didn't see any big factories and industry at all in the country. While, however, ten days is more than enough for the country, most tourists only spend four days. Sao Tome being on your top 5 makes me very happy ?????! and I hope next
