

# SAO TOME AND PRINCIPE EUREKA ENERGY STORAGE

What is the Global OTEC Dominique project? The Global OTEC Dominique project, off the coast of S?o Tom? and Pr?ncipe, has the potential to alter the energy demands of island nations significantly. The Dominique project by Global OTEC aims to bring sustainable energy to island nations.

How much energy does OTEC use? This is important, as previous OTEC projects have used a great deal of the energy they generate to run the pumps that bring the cold water to the surface. In 1981, the Tokyo Electric Power Company built an OTEC plant in Nauru that generated around 120 kW of energy, but used around 90 kW of that to run the plant.

How does Dominique tackle OTEC's high capital expenditure? Dominique tackles one of the big issues with OTEC ??? high capital expenditure ??? by siting the system on a floating barge, scaling down the platform size, using modular construction, and employing a steel hull for space efficiency.

Energy Storage provides a unique platform for innovative research results and findings in all areas of energy storage, including the various methods of energy storage and their incorporation into and integration with both conventional and ???

The workshop to validate the "National Renewable Energy Status Report of S?o Tom? and Pr?ncipe" and the "Strategic Program for the promotion of investment in renewable energy and energy efficiency in Electric Sector of S?o Tom? and ???
