Saudi Arabia's time to shine in solar energy use . While the abundance of sunshine means that solar panels can be generating high yields of electricity, the harsh conditions contribute to degradation of photovoltaic panels. Under its Vision 2030 initiative, Saudi Arabia aims to deliver 50 percent of its electricity from renewables by 2030

RIYADH: Saudi Arabia's Tadawul All Share Index closed in red on Thursday, losing 68.61 points, or 0.57 percent, to settle at 11,892.44. The total trading turnover of the benchmark index was SR10
