

SHOULD I CHOOSE A BED THAT CAN STORE ELECTRICITY OR NOT

Do storage beds take up the most space in a bedroom? Beds often take up the most space in a bedroom. If you want to maximise your living space and reduce clutter, a storage bed might be the perfect solution for your needs. What are storage beds? Storage beds are multi-functional pieces of furniture that offer concealed compartments alongside a sturdy base for your mattress.

Why do you need a storage bed? Beds with storage space keep items neat and organised so your room is clutter-free. What's great about storage beds is that the drawers are completely concealed, so you can store everything, from toys and books to shoes and clothing, out of plain sight.

Should you invest in a bed with storage space? Investing in a bed with storage space helps to keep your room tidy and clutter-free. There are generally two types of storage beds: Gas lift beds These feature a gas-lift hydraulic system that lifts the base to reveal plenty of storage underneath. Drawer beds These are perfect for storing items you'll need access to on a regular basis.

What type of storage bed should I Choose? The type of storage bed you choose largely depends on your space and room layout. Storage beds with drawers take up significant floor space when opened. So, if space is limited, you're better off with a gas lift bed.

What is a storage bed? Storage beds are multi-functional pieces of furniture that offer concealed compartments alongside a sturdy base for your mattress. They can be used to store clothes, bags, shoes, toys, books and more. Investing in a bed with storage space helps to keep your room tidy and clutter-free.
