Three Development Finance Institutions and a renewable fund manager have announced a co-investment of more than \$52 million for Planet Solar, a greenfield 50MW solar power project in Sierra Leone. Planet Solar will be the first large-scale grid-connected solar Independent Power Producer (IPP) project, driving a diversified approach to

Founded in 2019, Easy Solar - Power Solutions is a leading provider of solar energy solutions in Sierra Leone and Liberia. With over 700 kW of installed capacity, we are committed to providing world class solar and battery storage for schools, businesses, hospitals, farms and other high-impact organisations.

At the end, a total of 6,657 households in rural Sierra Leone were illuminated for the first time, with access to clean and sustainable electricity provided by the containerized solar power solutions from Asantys Systems GmbH. This milestone achievement represents a significant step towards improving lives and fostering development in the region.

C. Battery sizing Generating solar PV system the battery kind suggested is LA battery. The battery should be bulky & sufficient to stock sufficient energy to function the applications at nighttime and dull days. To determine parameter of battery, the following steps are involved: Step 1: Calculating overall power necessity for a day.
