

Renewable power plants operator Voltalia SA (EPA: VLTSA) on Thursday introduced the commissioning of its 5-MW Parc Sable Blanc solar farm with an incorporated storage space system in French Guiana.

Sungrow has agreed a partnership to deploy 160MW/760MWh of battery energy storage systems (BESS) and 165MW of PV inverters for a large off-grid project ??? AMAALA ??? in Saudi Arabia. The China-headquartered firm has "forged a strategic partnership" with engineering, procurement and construction (EPC) firm Larsen & Toubro for the clean

TotalEnergies has sold a 50% stake in a 2GW US solar and energy storage portfolio and acquired German renewable energy developer VSB Group. Italy awards 1.5GW in oversubscribed agriPV tender

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced ???

French firm Voltalia has started building the largest energy storage system in French Guiana made up of two separate lithium-ion batteries. The Mana Stockage facility with 10MW / 11.3MWh of storage is located close ???

The 63.3MW Calatagan Solar Farm, which was the largest in the country when it was commissioned in 2016. Image: Solar Philippines. The Board of Investments (BOI) in the Philippines has given a "green lane???

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModulelTech conference dedicated to the U.S. utility scale solar sector.

Saudi Arabia awards 2GW Al Sadawi solar project to Masdar consortium. By JP Casey. November 20, 2024. and has the 1.1GW Al Henakiyah and 250MW AMAALA solar-plus-storage project in its pipeline.

French energy minister S?gol?ne Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables generation

Solar & Storage Live KSA is an event that showcases the latest technologies and advancements in the renewable energy industry. It is considered the largest exhibition in Saudi Arabia dedicated to promoting a greener and more energy-efficient system. This event celebrates the forefront of the transition towards a sustainable future.

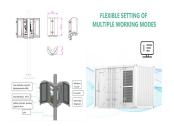

In French Guiana, commissioning of a combined solar and storage power plant May 11, 2023 Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energy, announces today (May 10) the commissioning of its Sab. . .

Join us at Solar & Storage Live as we spearhead the revolution towards a brighter, greener future! Our mission is to accelerate the adoption of solar Solar & Storage Live KSA 2025 12-14 October 2025 Riyadh Front, Go to event ???

Hydrogen energy storage ??? French hydrogen specialist HDF Energy have announced their Centrale ?lectrique de l''Ouest guyanais (CEOG) project, which will be one of the world's biggest solar-plus-storage power plants. The \$90m USD plant is expected to generate around 50 GWh per year and will store energy using hydrogen instead of the usual lithium-ion.

In French Guiana, commissioning of a combined solar and storage power plant. Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energy, announces today the

One of the agreements, here with TCL, aims to build a 20GW ingot and wafer solar PV manufacturing plant in Saudi Arabia. Image: PIF. Saudi Arabia's Public Investment Fund (PIF) has signed two

Saft will provide a modular, plug-and-play 8MW/8MWh BESS to Neoen's solar PV project in Antugnac, southern France. The battery storage will perform frequency regulation ancillary services for the grid of national transmission operator RTE after Neoen won a seven-year contract through RTE's AOLT tender process.

BESS installation at Voltalia's Mana Stockage project in French Guiana. Image: Voltalia. from Saudi Arabia, its experience with developing mixed technology renewables projects such as a hybrid wind and solar park in Brazil and solar-plus-storage in French Guiana was central to its selection by the Uzbek government.

Together, the two facilities possess a combined capacity of 10 MW, generating sufficient energy to cover the annual electricity needs of close to 3,600 homes in French Guiana. In French Guiana, EDF now has eight solar facilities in service, including three that are equipped with battery storage systems. It represents close to 20 MW in total

Uzbekistan is aiming to deploy 25GW of solar PV and wind by 2030. In addition to its agreement with Saudi Arabia's ACWA Power, the country's government also has a joint development agreement with the UAE's Masdar for 2GW of wind energy and 1,150MWh of battery storage.

Sudair Solar PV will be one of the world's largest single-contracted solar plants and the biggest in Saudi Arabia, boasting a capacity of 1.5 gigawatts. This project is a major step for the Public Investment Fund's renewable energy program, achieving the second-lowest solar PV electricity production cost globally.

Chinese solar module manufacturer JinkoSolar has submitted plans for a 600MW solar-plus-storage project in Queensland, Australia, to the federal government. Australian government launches review

In French Guiana, commissioning of a combined solar and storage power plant Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energy, announces today the

It will meet half of the energy demand in Saint-Laurent-du-Maroni and the Mana commune of French Guiana. CEOG solar and hydrogen power plant make-up. The project will also include a battery storage system. The CEOG integrated solar and green hydrogen power plant will deliver a fixed electrical output of 10MW from 8am to 8pm and 3MW from 8pm

The battery is situated within Voltalia's Toco energy storage complex, touted as one of the largest ones of its kind in France with a capacity of 19 MW/27 MWh. At present, Voltalia operates 48 MW of solar, hydropower, biomass and energy storage assets in French Guiana. The firm started building Parc Sable Blanc in November 2011.

Large-scale battery storage projects announced to date in Saudi Arabia include what has been described as the world's largest off-grid BESS for a new luxury resort on the Red Sea Coast, a 536MW/600MWh system for the new-build Neom "smart city" development, and a solar-plus-storage off-grid project for another "megatourism" development

A consortium of developers has achieved financial close for US\$1.3bn in debt facilities for the Red Sea project, a huge resort under construction off the coast of Saudi Arabia which plans to have the largest off-grid battery energy storage system at 1,200-1,300MWh.

8minute Solar Energy is the owner. 8minute Solar Energy is the developer. Additional information. The project includes the option to add 50 MW/200 MWh of energy storage. The project, known as the Eland Solar & Storage Center, will be built in two 200 MW AC phases (Solar) in Kern County north of the city and downtown Bakersfield.

These batteries also strengthen the Toco storage complex, which now has a capacity of 19 MW and 27 MWh. With a strong presence in French Guiana, Voltalia currently operates solar, hydro, biomass and storage power plants with a combined capacity of 48 MW, covering almost 10 percent of the consumption of the main electricity grid.

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

Saudi Arabia Announces Transformative 3.6 GW Power Projects in Partnership with SEC, ACWA Power, and KEPCO and storage power plants in French Guiana with a combined capacity of 31 megawatts, covering nearly 10% of the consumption of the main electricity grid. SolarQuarter is one of the world's largest global solar energy sector media

Solar & Storage Live KSA is Saudi Arabia's largest renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more energy efficient

The 63.3MW Calatagan Solar Farm, which was the largest in the country when it was commissioned in 2016. Image: Solar Philippines. The Board of Investments (BOI) in the Philippines has given a "green lane certificate" for a solar and storage project said to be the largest in the world, enabling it to proceed at a quicker pace.
