Solink is used by over 8,000 businesses. Solink's video security software connects your security camera footage with your POS data and creates a dashboard of analytics and searchable moments. Restaurants, retailers, and financial institutions use Solink to increase profits, reduce theft, and save time. Solink vs Eagle Eye Networks

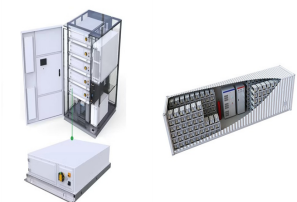

We offer specialized Glint and Glare Assessments, a key requirement for solar energy projects situated in close proximity to aviation operations in South Africa. Our assessments analyze the potential reflective impacts to ensure compliance with aviation standards and minimize risks to air traffic navigation.

Plusieurs acteurs priv?s participent au d?veloppement du programme CIZO qui consiste ? amener l'?lectricit? aux foyers les plus recul?s gr?ce au hors-r?seau.

Solink's Video Alarms is the ideal warehouse alarm system. With video alarms, all of these problems can be eliminated. Here are some advantages of video alarms for warehouses: Warehouses can protect areas instead of just operating as part of a security perimeter. Video alarms can be turned on and off easily in the Solink app.

Better, cheaper, and easier to deploy: Solink Video Alarms Monitoring uses your existing security cameras as an alarm system. Unlike panel alarms, which only protect doors and windows, video alarms protect entire areas. Individual areas can be turned on and off separately with one-click controls, so a loading dock can be secured while the storefront is still operational.
