

# SPECIFIC LIST OF THE ENERGY STORAGE INDUSTRY INNOVATION ALLIANCE

Why is China launching a national energy storage Industry Innovation Alliance? [Photo/China News Service]China came up with a national energy storage industry innovation alliance on Monday aiming to further boost the country's energy storage sector,as the country aims to promote large-scale use of energy storage technologies at lower costs to back up the world's biggest fleet of wind and solar power plants.

What is the White Book for energy storage industry in 2014? White book for energy storage industry in 2014. China Energy Storage Alliance 2014. China Electricity Council. The study on the development policy of energy storage industry. China Power Enterprise Management 3; 2015. p. 24???28. Global energy storage distribution: the US accounts for 40% and Japan accounts for 39%.

Is energy storage a key innovation field in China? In November 2014,the State Council of China issued the Strategic Action Plan for energy development (2014???2020),confirming energy storage as one of the 9 key innovation fieldsand 20 key innovation directions.

Is energy storage a precondition for large-scale integration and consumption? So to speak,energy storage is the precondition of large-scale integration and consumption of RES. However,China's energy storage industry is at the exploration stage and far from commercialization. This restricts the development of RES to certain extent. For this reason,this paper will concentrate on China's energy storage industry.

Does China's energy storage industry have a comprehensive study? However,because of the late start of China's energy storage industry,the comprehensive study for the whole industry is very few. We found a review which provided a relatively comprehensive analysis of the technical and economic issue of it. Compared with other studies,its research has a
