

SUN BIRD SOLAR BAHRAIN

What is Bahrain's new Solar Initiative? Discover how Bahrain's latest solar initiative, led by Vitol Bahrain, signals a bold move towards sustainable energy solutions. With government support and innovative features like EV charging points, the Dragon City project highlights Bahrain's commitment to reducing carbon emissions and embracing renewable energy for the next quarter-century.

How much solar energy does Bahrain produce a year? According to the Gulf Research Centre, the kingdom has the capacity to create roughly 33 TWh of solar energy every year. Homefix has provided individuals, groups, organisations, industries, ministries, and corporations in Bahrain with dependable and long-term contracting and trading services.

What is the largest solar carport in Bahrain? The solar plant at Dragon City, with a capacity of 5.7 MW, is the largest solar carport plant in Bahrain and ranks as the second-largest solar project in the Kingdom. Over the next 25 years, it is expected to generate 9,000,000 kWh of clean renewable energy annually, substantially reducing the nation's carbon footprint.

How will a 100 MW solar PV plant be built in Bahrain? Once the necessary rehabilitation is complete, a 100 MW solar PV plant will be constructed. On the distribution side, Bahrain has adopted a net metering system, allowing businesses and individuals to install solar systems and supply excess electricity to the EWA grid.

Is Vitol advancing Bahrain's sustainability goals? Dr Bin Daina commended the collaborative efforts of Vitol Bahrain and its partners, acknowledging the significant role of such initiatives in advancing Bahrain's sustainability goals. The solar plant at Dragon City, with a capacity of 5.7 MW, is the largest solar carport plant in Bahrain and ranks as the second-largest solar project in the Kingdom.
