

# SUNGROW ENERGY STORAGE SALES FACTORY OPERATION REQUIREMENTS

---

How many energy storage systems will Sungrow deploy? Sungrow will deploy more than 1,500 PowerTitan2.0 liquid-cooled energy storage systems for this project. It is expected to start delivery in 2024 and achieve full capacity grid-connected operation in 2025.

What is Sungrow energy storage system? Sungrow energy storage systems cover all scenarios. Enhances the reliability of power supply. We also post our resources on social media. Follow us!

What does Sungrow do? 150+ Countries SUNGROW focuses on integrated energy storage system solutions, including PCS, lithium-ion batteries and energy management system. These turnkey ESS solutions can be designed to meet the demanding requirements for residential, C&I and utility-side applications alike, committed to making the power interconnected reliably.

How many battery cells does Sungrow have? In addition, this project is equipped with nearly 7.8 million battery cells. In order to solve the huge challenges of operation and maintenance, Sungrow uses intelligent EMS and BMS systems to ensure efficient and safe operation from battery cells to PACK to system and then to energy storage power stations.

HEFEI, China, April 15, 2025 /PRNewswire/ -- Sungrow, a global leading PV inverter and energy storage system provider, proudly announces the launch of PowerStack 255CS, the
