

# TIMOR-LESTE SYSTEM SOLARNY

How long does a solar system last in Timor-Leste? High electricity costs and readily available solar radiation mean that the average payback period for a rooftop photovoltaic (PV) solar energy system in Timor-Leste is only 1.5 to 3 years instead of the global average of 6-10 years. Transitioning to solar can also help the country meet environmental commitments.

Is there a market for roof-top solar energy systems in Timor-Leste? Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Can Timor-Leste generate solar energy? As almost the whole territory of Timor-Leste has the potential to successfully generate solar energy, the Government is keen to tap into this potential to setup utility scale solar plants as well as off-grid lighting solutions for remote localities.

What is a photovoltaic project in Timor-Leste? Just as the remaining renewable energies sources that are being explored by the Government in Timor-Leste, the photovoltaic units (or solar project) implementation project is specially directed for the families that live in remote areas, where difficulties still exist in the national energy network installation.

Can a solar power grid be installed in Timor-Leste? With the new UN reforms, the United Nations in Timor-Leste, under the leadership of the Resident Coordinator has now started lighting the way with its solar-powered grid which has begun to give maximum dividends. It took almost a year ??? from feasibility to completion ??? to see the solar panel installed at the UN Timor-Leste compound.

The economy of Timor-Leste is a low-income economy as ranked by the World Bank. [15] It is placed 140th on the Human Development Index, indicating a medium level of human development. [16] 20% of the population is unemployed, [1] and 52.9% live on less than \$1.25 a day. [16] About half of the population is illiterate. [16] At 27%, East Timor's urbanisation rate is ???

Timor-Leste has many civil servants with long service both before and after independence. The reformed pension system for civil servants will give the government a method of honorably allowing its elderly civil servants to exit the work force. At this time, the primary method of caring for elderly civil servants is to continue salary payments.

Timor-Leste is a new country and a small island state with a population of 1.3 million. While small island countries often face difficulties in autonomously managing their economies, Timor-Leste has chosen to become independent of Indonesia, and the international community, including the UN, has supported this decision.

The average annual salary of Timor-Leste is estimated to be approximate \$107,495 per year. The majority pay is between \$94,229 to \$121,927 per year. Visit Salary to find out Timor-Leste salary, Timor-Leste pay rate, and more.

However, this growth follows recessions in 2017, 2018, and 2020 which have left Timor-Leste's Gross Domestic Product (GDP) lower than it was in 2016. Rising commodity prices spurred by the Ukraine-Russia war imposes an additional hurdle but Timor-Leste has the policy space to absorb the shocks through various social protection schemes.
