Der Solar-Carport von TreeSystem ist die perfekte modulare Lösung sowohl für grosse Freiflächen und öffentliche Parkplätze als auch für private Gärten. Der Carport ist für die Unterbringung von Sonnenkollektoren konzipiert, die VERTIKAL IN DREI REIHEN angeordnet sind, mit einer Standardneigung von 5° bis 10°.

The tree system uses 4 x 2ft stakes at the base of each leg to form a tree root mounting system which is as strong and secure as any product on the market and a lot faster and easier to install than any mounting system on the market. We love this product. Why Love Solar ? Since 2009, Love Solar have installed over 1200 Solar PV systems

TreeSystem certainly could not miss that! you will find our solar ground mounting solutions and stop under the solar carport. KEY will be the perfect chance to meet all the major European players in the pv sector, share ideas and news from the solar industry, consolidate strategic partnerships and meet in person the real protagonists of the

In Bönabach and Rosental, the largest photovoltaic park ever built in Austria was recently opened - the size of 28 football fields. The plant, built on a former dump of ash from the processing of lignite, had a soil depth limit of only 45-50 cm. Thanks to the adjustable structures (link pag structures reg) TreeSystem and the patented anchoring, this installation on landfill has been ???
