

TRINIDAD AND TOBAGO SOLAR PRICE IN

Why are solar PV systems so popular in Trinidad and Tobago? This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down. The government is encouraging the use of Solar energy through tax incentives, thus making PV systems more attractive for domestic and commercial use.

Is Trinidad ready for more solar power? Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

How much does electricity cost in Trinidad and Tobago? The cost of electricity in Trinidad and Tobago is around \$0.05 per kWh. This relatively low cost can be attributed to the country's abundant gas resources and a subsidy on electricity.
