

# TURKS AND CAICOS ISLANDS HYBRID SOLAR ENERGY

How many rooftop solar PV systems will be installed in Turks & Caicos? The contract outlines the installation of five rooftop solar PV systems, with battery energy storage and accessories at the following critical public facilities: These rooftop solar PV systems are specially designed for resilience to withstand fierce climatic conditions in the Turks and Caicos Islands.

Can Turks and Caicos use solar power? The Turks and Caicos Government and Fortis TCI are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

Who owns Turks & Caicos utility limited (TCU)? Turks & Caicos Utility Limited (TCU) is wholly owned by Fortis TCI and provides electricity to Grand Turk and Salt Cay. In 2010, the government of Turks and Caicos contracted with a consultant to draft recommendations for exploring the use of renewable energy and energy efficiency technologies to create a more sustainable energy framework.

What is transforming to green energy in the Turks and Caicos Islands? The ???Transitioning towards Green Energy in the Turks and Caicos Islands??? project falls within the development activities of the RESEMBID programme, which is a 47-project programme funded by the European Union and implemented by Expertise France - the development cooperation agency of the Government of France.

How much does electricity cost in Turks and Caicos? The 2015 electricity rates in Turks and Caicos are \$0.29 per kilowatt-hour (kWh), slightly below the Caribbean regional average of \$0.33/kWh. Like many island nations, Turks and Caicos is almost 100% reliant on imported fossil fuel, leaving it vulnerable to global oil price fluctuations that have a direct impact on the cost of electricity.

# TURKS AND CAICOS ISLANDS HYBRID SOLAR ENERGY

Who owns Turks & Caicos electric grid? The government-owned Turks and Caicos electric grid was privatized in 2006 through a series of acquisitions to create a vertically integrated structure. FortisTCI, a wholly owned subsidiary for Fortis Inc., is an international utility holding company that owns and operates generating stations and distribution lines across the islands.
