Plasma energy renovables del uruguay Transformamos los residuos. Cuidamos el medio ambiente en pos de un futuro mejor. Somos solución. Uno de los grandes problemas que enfrentan las ciudades es el tratamiento de la basura. Las técnicas usadas generan contaminación y no aprovechan al 100% el potencial de los residuos.

Since then, Akuo Uruguay is part of the Country transformation of the energy matrix from petroleum-based electricity generation to renewable sources: we have developed, built and we now operate three windfarms composed of 50 machines with a maximum tip height of 175 meters for a total install capacity of 142MW, located in Florida and Lavalleja departments.

Uruguay is positioned as a leader in the implementation of renewable energy, with important steps towards achieving an ambitious goal: that 50% of all energy in the country comes from renewable sources. This ???

the energy mix, reduce dependency from fossil fuels, improve energy efficiency, and increase the use of endogenous resources, mostly renewables. The plan sets a target of 50% primary energy from renewable energy sources by 2015. This includes renewable energy for electricity generation, industrial and domestic heat, and transport.

2 ? Uruguay's energy grid became powered almost exclusively by domestic renewable sources, and consumer prices, adjusted for inflation, fell. "Electricity bill prices dropped substantially," said Alda Novell, a resident of Montevideo, by telephone. Today, Uruguay has more than 700 wind turbines distributed throughout its territory.

Historically, energy has been a stronghold of state-owned companies, such as UTE and ANCAP. The National Directorate of Energy (Spanish: Direcci?n Nacional de Energ?a) is the main governmental body in charge of energy policies.[2] The Global Economic Crisis of 2008 made many of the materials to produce renewable energy cheaper, therefore Uruguay decided it ???

In 2007, Uruguay had a massive problem with no obvious fix. The economy of this country of 3.5 million people was growing, but there wasn't enough energy to power all that growth. Ram?n M?ndez
