

# UGANDA SOLAR

The programme, funded by Government of Uganda and World Bank, will run until June 30, 2027, and is aimed at increasing access and adoption of clean energy through financial support for clean cooking solutions, off-grid solar technologies for households and enterprises, as well as access to on-grid and off-grid productive use technologies to support ???

Solar energy can be converted to electricity on and off-grid through photovoltaic or concentrated solar power (CSP) technology. About 200,000 km<sup>2</sup> of Uganda's land area has solar radiation ???

The 24 MWp Solar PV project is being implemented by Ituka West Nile Uganda Limited, a project company registered in Uganda and fully owned by AMEA Power. The project is located on a 52-hectare site in Ombachi village, Uleppi Subcounty, Madi Okollo District in the West Nile Sub-Region, around 450 km from Kampala.

In recent years, the solar industry in Uganda has been steadily on the rise, powered by the country's abundant sunshine and a growing commitment to renewable energy sources. As we enter 2024, the market outlook for Uganda's solar ???

Felicity Solar Uganda is the go-to provider for comprehensive solar solutions, serving homes, businesses, and enterprises. With expert installation support and strong after-sales service, ???

Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar PV investment, the government of Uganda introduced model
