# UZBEKISTAN POWER SOLUTION INDUSTRIES LLC

Gas-fired generation dominates Uzbekistan's electricity mix. It accounts for around 87% in 2023 and a forecasted 81.9% in 2024. However, this share will gradually decline over the coming decade (to about 63% in 2033) as the renewable energy and hydropower sectors expand. The government's efforts to reform the energy sector will likely boost private investment in the ???

Power Solutions is the Mid-Atlantic region's premier electrical contractor for mission-critical environments. Working in partnership with the country's largest general contractors, Power Solutions' craftsmen build and maintain electrical systems for hospitals, data centers, medical laboratories, telecommunications centers, government and military institutions and more.

The Sirdarya project was planned by the Government of Uzbekistan to provide cleaner, more efficient and cost-competitive gas power that can be utilized across industries in Uzbekistan. This new plant will have capacity equivalent to 8% of Uzbekistan's total generation capability and will be able to meet 15% of the country's overall power demand when complete.
