

VICKY SOLAR NEW ZEALAND

Is going solar a good idea in New Zealand? Going solar helps the environment - it creates clean, green energy and is a great way to reduce your carbon footprint. Going solar demonstrates your commitment to sustainability and will help New Zealand achieve its target of net zero greenhouse gas emissions by 2050. Is your property suitable for solar?

Do solar panels work in New Zealand? Absolutely! New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400. Solar Panels don't require sunshine; they require daylight, so Solar Panels work year-round, even in the lower South Island.

Who would you recommend Harrison's solar? Harrison's couldn't have better people to represent their product. We would recommend them and Harrison's Solar to anyone. We were stepping into the unfamiliar with the installation of Solar panels & battery. However, with Stu and his team we felt supported and confident throughout the whole process and into the future.
