Rinon offers a complete range of wall-mount enclosures which are suitable for internal and external electrical installations for industrial, infrastructure, commercial and communication applications. They are built to precision to ensure consistent high quality standards.

A wall mount enclosure is a moderately durable and secure structure designed to house and safeguard critical components. One of the primary benefits of wall-mounted enclosures is that they allow you to save space if you don't have enough room for floor-standing enclosures, or if transferring a cabinet to a wall mount is perceived as providing more security and privacy.

Our enclosures are made from high-quality materials including: plastic, aluminum, steel and stainless steel. Designed for a variety of applications and environments, our catalog of electronics enclosure solutions range from waterproof NEMA-rated electrical enclosures to ???
