

# WHAT IS THE PROSPECT OF ENERGY STORAGE EQUIPMENT IN KOSOVO

What is Kosovo's Energy Strategy? The energy strategy foresees 170 MW in battery operating power. In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli.

Why does Kosovo need a reliable electricity system? In order to boost employment, increase growth, reduce poverty, and improve people's lives, Kosovo needs affordable and reliable energy. The country's current electricity system is outdated, inadequate and undependable, posing significant challenges to economic growth and development.

How much will Kosovo's new solar power plant cost? In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli. The contracts will have a combined value of EUR 180 million, she added.

How did Kosovo get its own energy system? Kosovo was part of the Regional Energy Community and was connected with the regional system through interconnections with Serbia, North Macedonia, Montenegro and Albania. KOSTT made an agreement with ENTSO-Eso Kosovo gets his own independent region of energy administration. Kosovo gets full independence and control of its energy industry.

Why does Kosovo waste 30% of its available energy? Today, Kosovo wastes 30% of its available energy due to energy efficiency, outdated infrastructure, and commercial losses such as theft. The outdated electrical grid and technical losses account for an additional 37% of energy waste.
