They come in stationary wire racks or wire reel systems with optional swivel caster wheels. Waytek also carries several storage compartment options to sort electrical connectors, automotive fuses and other circuit protection devices. Choose from clear plastic storage compartment boxes or gray powder coated metal storage compartments.

When wiring solar panels in parallel, the amperage (Imp) rating will combine, but voltage (Vmp) won't. Voltage (Vmp) will be limited to the lowest Vmp rating of an individual panel (thus why it's important to match Vmp as close as possible). When wiring solar panels in series, the voltage (Vmp) will combine, but the amperage (Imp) won't.
