

ZHONGNA ENERGY TECHNOLOGY AND GAOBO ENERGY STORAGE

Who is zhongna energy? Founder Xia Gang said at the groundbreaking ceremony that since its establishment, Zhongna Energy has always adhered to the ???accumulation of full-stack technical capabilities??? and ???building of full-chain mass production capabilities???.

When will Zhong na energy build a new battery plant? The first construction phase will be completed in August 2024with an annual capacity of 10 GWh for Na-ion battery cells. Zoolnasm,also known as Zhong Na Energy,has yet to disclose a timeline for phase 2. The company earmarked 10 billion yuan (\$1.4 billion) to build on an area of 600 acres with access to the mighty Yangtze river.

How long has zoolnasm been researching sodium-ion batteries? The company???'s head scientist,Zhao Jianqing,claims fifteen yearsof research in sodium-ion batteries (SIB). According to the website,Zoolnasm has developed three SIB cathode material preparation technologies,and an unnamed third party has tested its soft-pack battery samples.

Incidentally, also in Jiangsu province but in Suzhou, BYD this week signed a contract with Huaihai to build an SIB plant in China with a capacity of 30 GWh. The budget is also the same budget at ten billion yuan (nearly ???

The delegation visited the International Artificial Intelligence Innovation Park's integrated photovoltaic, storage and charging demonstration project, the China Sodium Energy Storage ???

After BYD and Huaihai confirmed plans this week, another company is
building a large factory to produce sodium-ion batteries in China.
Zoolnasm, a startup founded in January 2021, has already started
construction.

It's a residential energy storage project for a office building located in
Florence, Italy, we provide CSiT powerwall battery together with Deye
inverter, each battery pack with the energy of 5kWh, totally 16 battery
modules connect ???
