How much electricity does Zimbabwe generate? Zimbabwe relies heavily on hydro-powered resources to generate electricity. As per the International Renewable Energy Agency (IRENA), Zimbabwe generated around 7 TWh of electricity in 2021 via hydro-powered resources, accounting for 58.2 % of the total electricity generated in the country.

Where is NRE generating electricity? The hydroelectric schemes are on the rivers flowing from the Nyangani Massif in eastern Zimbabwe and from Mount Mulanje in Malawi. The solar scheme is in Mutoko, Zimbabwe. NRE has built 44MW of generation capacity. In 2023 we delivered into the national grids 155,000 MWh of electricity.

Why should we invest in Zimbabwe? This will enable greater economic and social prosperity, infrastructural development and employment, starting in our country Zimbabwe. Our mission is to advance environmental and climate protection, with a commitment to our rural communities, reviving our industries, uplifting our country and elevating our employees.
